FOREWORD

This Technical Manual contains a step-by-step description of administrative procedures which are frequently used in an administrative headquarters.

The description of each administrative procedure shows who takes the required action, what action is taken, what printed forms are used, the authority for taking action, and pertinent comments. The authorities cited include Army Regulations, War Department Circulars, and TM 12–250, Administration. The abbreviations used conform, where possible, to AR 850–150, but for the sake of brevity, many abbreviations are devised for sole use with this manual. Such improvised abbreviations are not authorized for use elsewhere. Also for the sake of brevity, references to printed forms have been shortened (for example, AGO Form 32, or AGO 32, instead of W. D., A. G. O. Form No. 32). The dates of Army Regulations which are referred to in the text are included in the lists of AR references in the heading of each procedure.

The manual is in loose-leaf format so that revision pages can be inserted easily. Additional procedures will be published from time to time.
